

Mini Power Inverter 300W

A Mini Power Inverter 300W is a compact and portable device designed to convert direct current (DC) power into alternating current (AC) power. This type of inverter is capable of providing a maximum output power of 300 watts, making it suitable for running small electronic devices and low-power appliances that require AC power.

The mini power inverter is designed to be small and lightweight, making it easy to carry and transport. This portability is especially useful for activities like camping, road trips, and emergency situations.

Mini Power Inverter 300W

If you're seeking for the best Mini Power Inverter 300W at a great price, contact Ningbo Taurus Industry Co., Ltd. today!

Mini Power Inverter 300W (600W Peak) AC 110V/220V To DC 12V Converter With USB*2 And AC*2 Socket. Numerous uses, include camping, outdoor work, and travel. 4.2A Dual USB AC Car Charger with 300W Power Inverter 12V DC To 110V AC Car Plug Adapter Socket Converter

Product Parameter (Specification)

Model	MX300	
Rated Power	300W	
Peak Power	600W	
DC Input Voltage	12V/24V/48V	
Output	AC Voltage	110V-220V
	Frequency	50Hz±0.5Hz or 60Hz±0.5Hz

	Waveform	Modified Sine Wave
Dimension L*W*H(mm)		120*98*53
USB Port		2.1A+2.1A
Protection		High and Low Temperature, Short circuit, Over current, Over voltage, Reverse connect, Overload, Low voltage, Battery PTC
Socket		US, JP
Color		Red, Blue, Black, Customize
Customized		Support

Product Feature And Application

As a reputable manufacturer, we are pleased to offer you a 300W Mini Power Inverter. "Primary Function" With two USB connections and two ac sockets, the 300 Watt automobile power inverter converts dc 12V to ac 110V and can power items like a CPAP machine, a lamp, a vacuum cleaner, and a refrigerator. Appropriate for road trips, outdoor work, camping, etc.

【Double Protection Design】 Smart chip and fuse built-in. The product will automatically turn off the current output and turn on the red light when a defect is found, alerting the user and preventing a fuse from blowing.

【Multi-protection】 The sturdy metal enclosure can offer superior protection against drops and impacts. The machine can be protected from overload, short circuit, reverse connection, undervoltage, overvoltage, and overheating thanks to the safe charging technology.
